It isn't too late!

Evaluations are available online at <http://resnetsymposium.org/rspm/evaluation/>. Please complete an evaluation for each session you attended - your feedback is appreciated!

Weather Report

Wednesday: Mostly sunny, with a high of 80° and a low of 58°, with a 10% chance of precipitation.

Thursday (for those of you staying in Fredericton): Scattered thunderstorms, with a high of 77° and a low of 57°, with a 40% chance of precipitation.

Complaints about the accuracy of the weather forecasts in the newsletter should be directed to weather.com.

Presentation Downloads

If you would like to download files (such as PowerPoint slides) from a presentation, please visit <http://resnetsymposium.org/resnet2008/schedule.htm>. If the files have been made available, they will be online by the end of the conference. An e-mail regarding the availability of session videos will be sent to ResNet-L after the conference has ended.

Music and Dancing

For those of you who wish you could dance like the students we saw at the Opening Reception to the music we heard at the Closing Event, the groups were the Stanford School of Irish Dancing (<http://www.nbirishdance.ca>) and Bottoms Up (<http://www.bottoms-up-band.com>).

Lobster Facts

How old was the lobster you ate last night? Take the weight, multiply it by 4 and add 3. A 2-pound lobster would be approximately 10-12 years old.

Lobsters have no vocal chords, and as such do not scream when cooked. They also do not experience pain. Any sound you hear could be that of air escaping from the lobster's body cavity as it expands from heating.

Lobsters do have teeth, however instead of being found in the mouth they are found in the stomach.

Along with the mouth parts, lobster has taste organs located in the feet.
